

Earth Day Poem 2023

Have Hope for Earth!

I can imagine a world without trash
Whether in the ocean or on the land
Swallowing trash with a splash
But we must stand

Help the ground
Help the oceans
Hear the beautiful sound
Hear the animal's emotions

Pick the trash up
From the ground
You have to help cleanup
Trash that is square and trash that is round

Everyone can clean it up

With any type of thing

Your hands, a tool, nothing made up

Could even be made up of string

Do not be lazy, do not be careless,

Do not be unconcerned

You have to be fearless

The messiness has to be burned

If you want a clean world without trash

People have to step up and not be afraid

We have to make a quick dash

To come to the Earth's aid

Trash should not be on the Earth

It shouldn't be anywhere

Save the Earth for what it's worth

From the ground, ocean, and the air
