

# Earth Day

By: Raghav

As the Earth dies  
You do not see  
Open your eyes  
Please agree

The Earth is dying  
Because of you  
Stop denying  
We know it's true

The Earth is like your mother  
Without it you'd cry  
There is no other  
So please try

Hear our voices  
Don't look away  
Make good choices  
So, the Earth will stay

Because after it's over  
You will say,  
"Why didn't you warn me?"  
Now the Earth has become gray

So, make a difference  
Before it's too late  
We can enjoy the Earth's magnificence  
And change our fate
